

ETHICS COMMITTEE DECISION

Meeting Date:	15.01.2026
Protocol No:	2026.014.IRB2.002
Principal Investigator (PI):	Tevfik Metin Sezgin
Title:	LeveraGing nEuromarkers for Next-gEneration immeRSlve Systems
Start Date:	15.01.2026
Duration of Approval:	1 year (with a possible extension)

The research proposal with the title and protocol number given above and the supporting material have been thoroughly examined by the **Ethics Committee for Biomedical Sciences** with regards to its aims, purpose, approach and methods.

The Committee reviewed the research proposal and approved the study protocol. However, a clinical trial protocol should be submitted upon the production of the device prototype with all relevant information and description and an amendment of the current approval must be reviewed by The Ethics Committee.

Notes:

- If the start date is delayed beyond 6 months, it is the PI'S duty to report to the Ethics Committee Secretariat.
- Any changes or amendments to approved protocols must be submitted to the Ethics Committee for approval prior to the implementation.
- Any incidents with ethical implications that occur during the study must be reported immediately to the Ethics Committee.
- PI may be required to obtain administrative authorization from competent authorities prior to the implementation of the project.

Best Regards,

Prof Dr. Hakan S. Orer
Chair
